# How to make the whiteboard bigger in EducateOnline

Here's what you see when you begin Educate Online and turn on the camera...

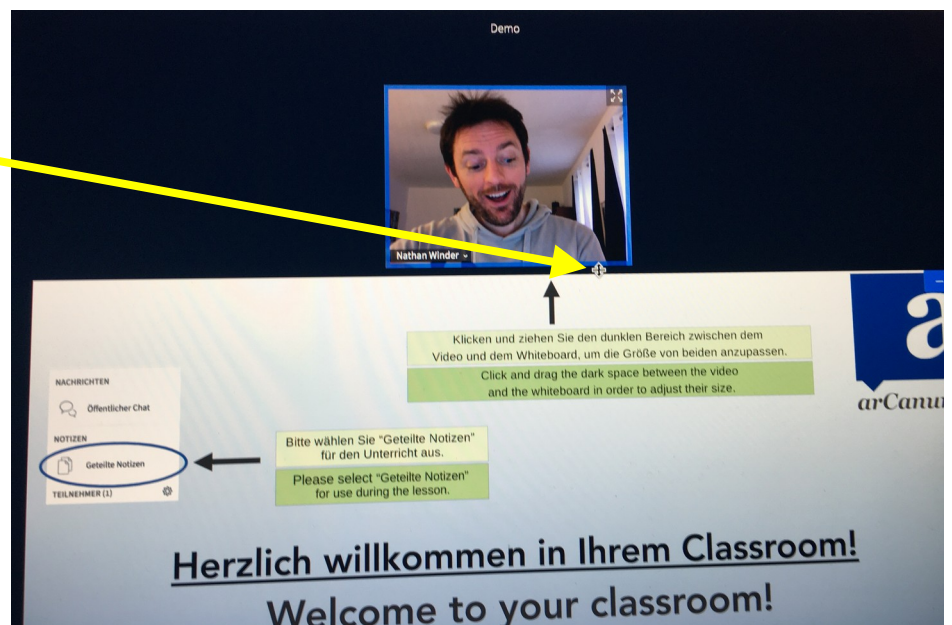

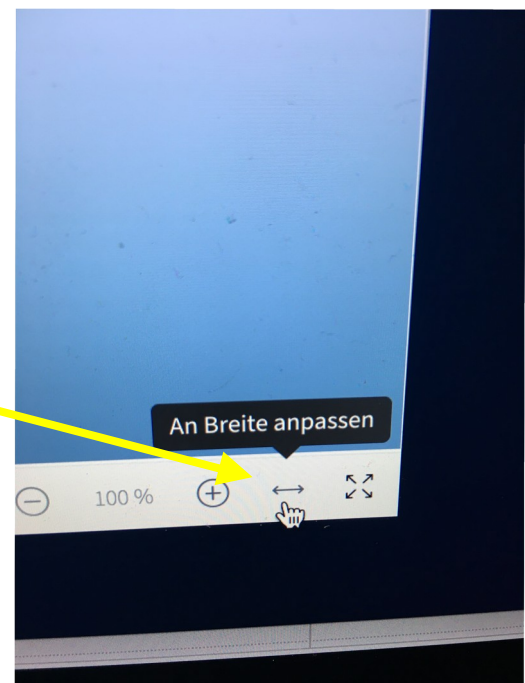

Let's make the whiteboard bigger!

• Move your pointer to the space between the whiteboard and the Video.

• Click and drag upwards to enlarge the whiteboard.

⚠️ Only you can see this change. Each participant can adjust the size of Their whiteboard as they would like.

• At the bottom of the whiteboard, next to the zoom function, is a left/right arrow icon.

• If you click on this then it will widen the whiteboard <u>for all participants.</u>
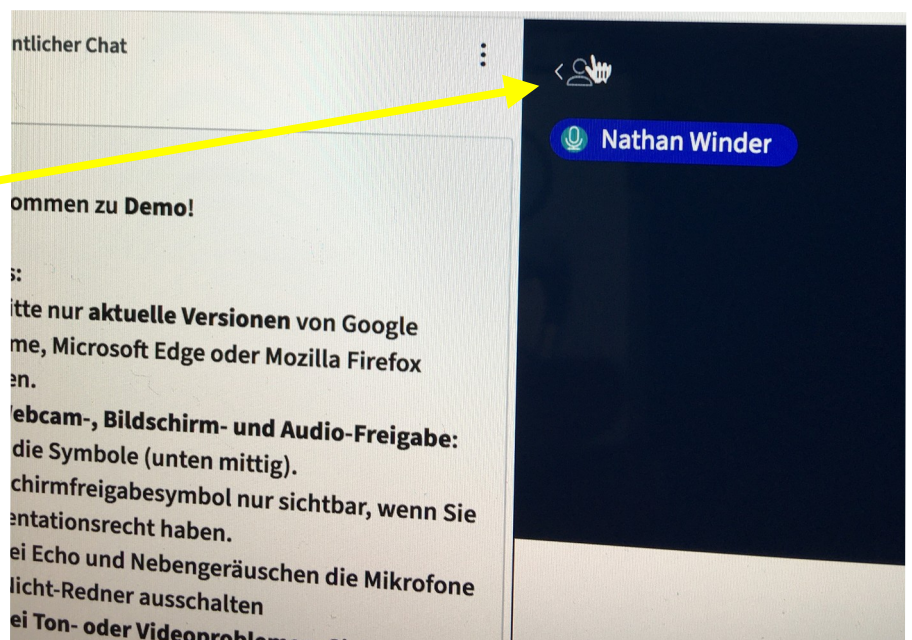

An Breite anpassen

100 %

• You can also click on this icon to hide the chat/notes window.

⚠️ This only changes <u>your</u> view.

Each participant must do this for themselves if they would like.

ntationsrecht haben.
ei Echo und Nebengeräuschen die Mikrofone
licht-Redner ausschalten
ei Ton- oder Videoproblemen:

Now your whiteboard is as wide as your browser!

You can click and drag anywhere on the whiteboard to move it up or down for all participants.

Achtung:
When in screensharing mode, the size of the whiteboard will be relative to the size of the window which you are sharing.

Klicken und ziehen Sie den dunklen Bereich zwischen dem
Video und dem Whiteboard, um die Größe von beiden anzupassen.

Click and drag the dark space between the video
and the whiteboard in order to adjust their size.

Bitte wählen Sie "Geteilte Notizen"
für den Unterricht aus.

Please select "Geteilte Notizen"
for use during the lesson.
